OUR AREAS OF FOCUS

YOUTH DEVELOPMENT

The Y believes all kids have great potential and deserve the opportunity to discover who they are and what they can achieve. Through the Y, kids today are cultivating the values, skills, and relationships that lead to positive behaviors, better health, and educational achievement.

HEALTHY LIVING

The Y is a leading community-based network committed to improving America's health. We harness our vast network to help the nation battle chronic disease and improve individual and community health through programs that promote wellness, reduce risk of disease and help people reclaim their health.

SOCIAL RESPONSIBILITY

At the Y, we understand that the desire to belong and help others is human nature, and everyone has something of value to contribute. Often, people just need to be motivated to act, and the Y has the credibility and expertise to be a catalyst.

Recently a past member of the Y told me that our membership rates had to be more competitive with other workout facilities in the area. How can we? We are not just a workout facility with a room for equipment. We have a pool, full size gym, racquetball, studios, plus those "rooms with equipment in them!" AND we do mission work to benefit everyone in our communities! Everything we do under our old roof relates to one of these areas of focus. You are welcome to be a part of one area, or every area. You choose where you want to spend your time and your dollars. Continue to choose the Y and have a part in improving many people's lives.

Terri Falkenberg—Executive Director
