# THE WORLD IS 71% WATER

## YOUR CHILDREN ARE 100% CURIOUS

Teach your children water safety and let them explore all their possibilities.

Safety Around Water teaches the fundamentals of water safety and swimming skills. Children will learn how to respond if they find themselves in unexpected water situations — from how to reach the water's surface if they submerge to safely reaching a pool's edge and exiting any body of water. Also discussed is how to safely respond to a person in need of assistance with an introduction to CPR.

May 13—July 18 (no class on July 4th)  
Ten 30 min lessons (2/week)

Mo & Tu 5:45-6:15 pm  
Member \$20 | General Public \$40
