# SWIM TEST

THE LIFEGUARD IS RESPONSIBLE FOR ADMINISTERING A SWIM TEST TO ANYONE UNDER THE AGE OF 18 AND/OR ANY SWIMMER IN QUESTION!

- Swim the width of the pool - over and back with the head above water using a productive flutter kick (legs at or near the surface) in the shallow end of the pool (If a lap lane is in the pool, swim from wall with basketball hoop to the life line and back.)
- Swim using either a paddle stroke or front crawl (Must swim on surface of water not under water.)
- Perform a back float for a minimum of 15 seconds or tread water for 30 seconds.
- If a swimmer is unable to complete these skills proficiently for the lifeguard on duty, the swimmer must stay in the shallow end of the pool. Non-swimmer that are less than 8 years of age must stay in the shallow end of the pool (with active adult supervision\*.)
- \*Active Supervision means the adult must be in the water within arms reach at all times (1 adult per 2 children ratio) in the shallow end of the pool.
- Children with floatation belts require active adult supervision. If only one lifeguard on duty swimmers will be asked to sit on the side or move to the shallow end of the pool when the swim test is done.
- YMCA's Aquatic department is employed to provide all aquatic participants with the utmost level of safety while in and around the water. If a lifeguard determines that a floatation device is unsafe or being used in an unsafe manner, they will be expected to ask the patron (s) to immediately discontinue use of the device or exit the pool.

ORANGE WRISTBANDS are worn by swimmers who have PASSED the swim test. Bands are worn on the right wrist.
